I JORNADAS DE PERSONAL CIENTÍFICO JOVEN CIBER

Vigo, 8-10 de mayo de 2024

CALL FOR ABSTRACTS

General information

As part of the conference, different sessions have been scheduled for poster and oral communications. A call for abstracts is launched to receive contributions which will be reviewed **by a scientific committee with researchers from all CIBER areas to select 6 postdoctoral oral communications, 16 predoctoral oral communications, and 80 poster communications.** Predoctoral oral communications will be part of the 'Pitch your Phd' sessions scheduled on 9 and 10 May and should be prepared for a short presentation format of 3 minutes. Postdoctoral oral communications will be part of the 'Pitch your Postdoc' session scheduled on 9 May and should be prepared for a short presentation format of 8 minutes.

Each CIBER group may submit a **maximum of 2 abstracts**, preferably one for oral presentation and the other for poster communication. The abstracts of oral communications not selected in this format will also have the option of being selected for communication in poster format.

Additionally, some **awards will be given to reward the best communications**. Three of them will be awarded by the scientific committee for the best oral (predoc and postdoc) and poster presentations respectively, and the fourth will be chosen by the audience for the best oral presentation. Each prize will consist of 1 200 € in an individual "centro de coste" through the CIBER Intranet for training purposes.

Important dates

Abstracts should be submitted from March 5th, **until March 20th (23:59h).** All registered researchers will receive an e-mail with information regarding abstract preparation and submission.

The type of presentation accepted (oral or poster) will be notified by e-mail on April 19th.
